fragments of 2 shells

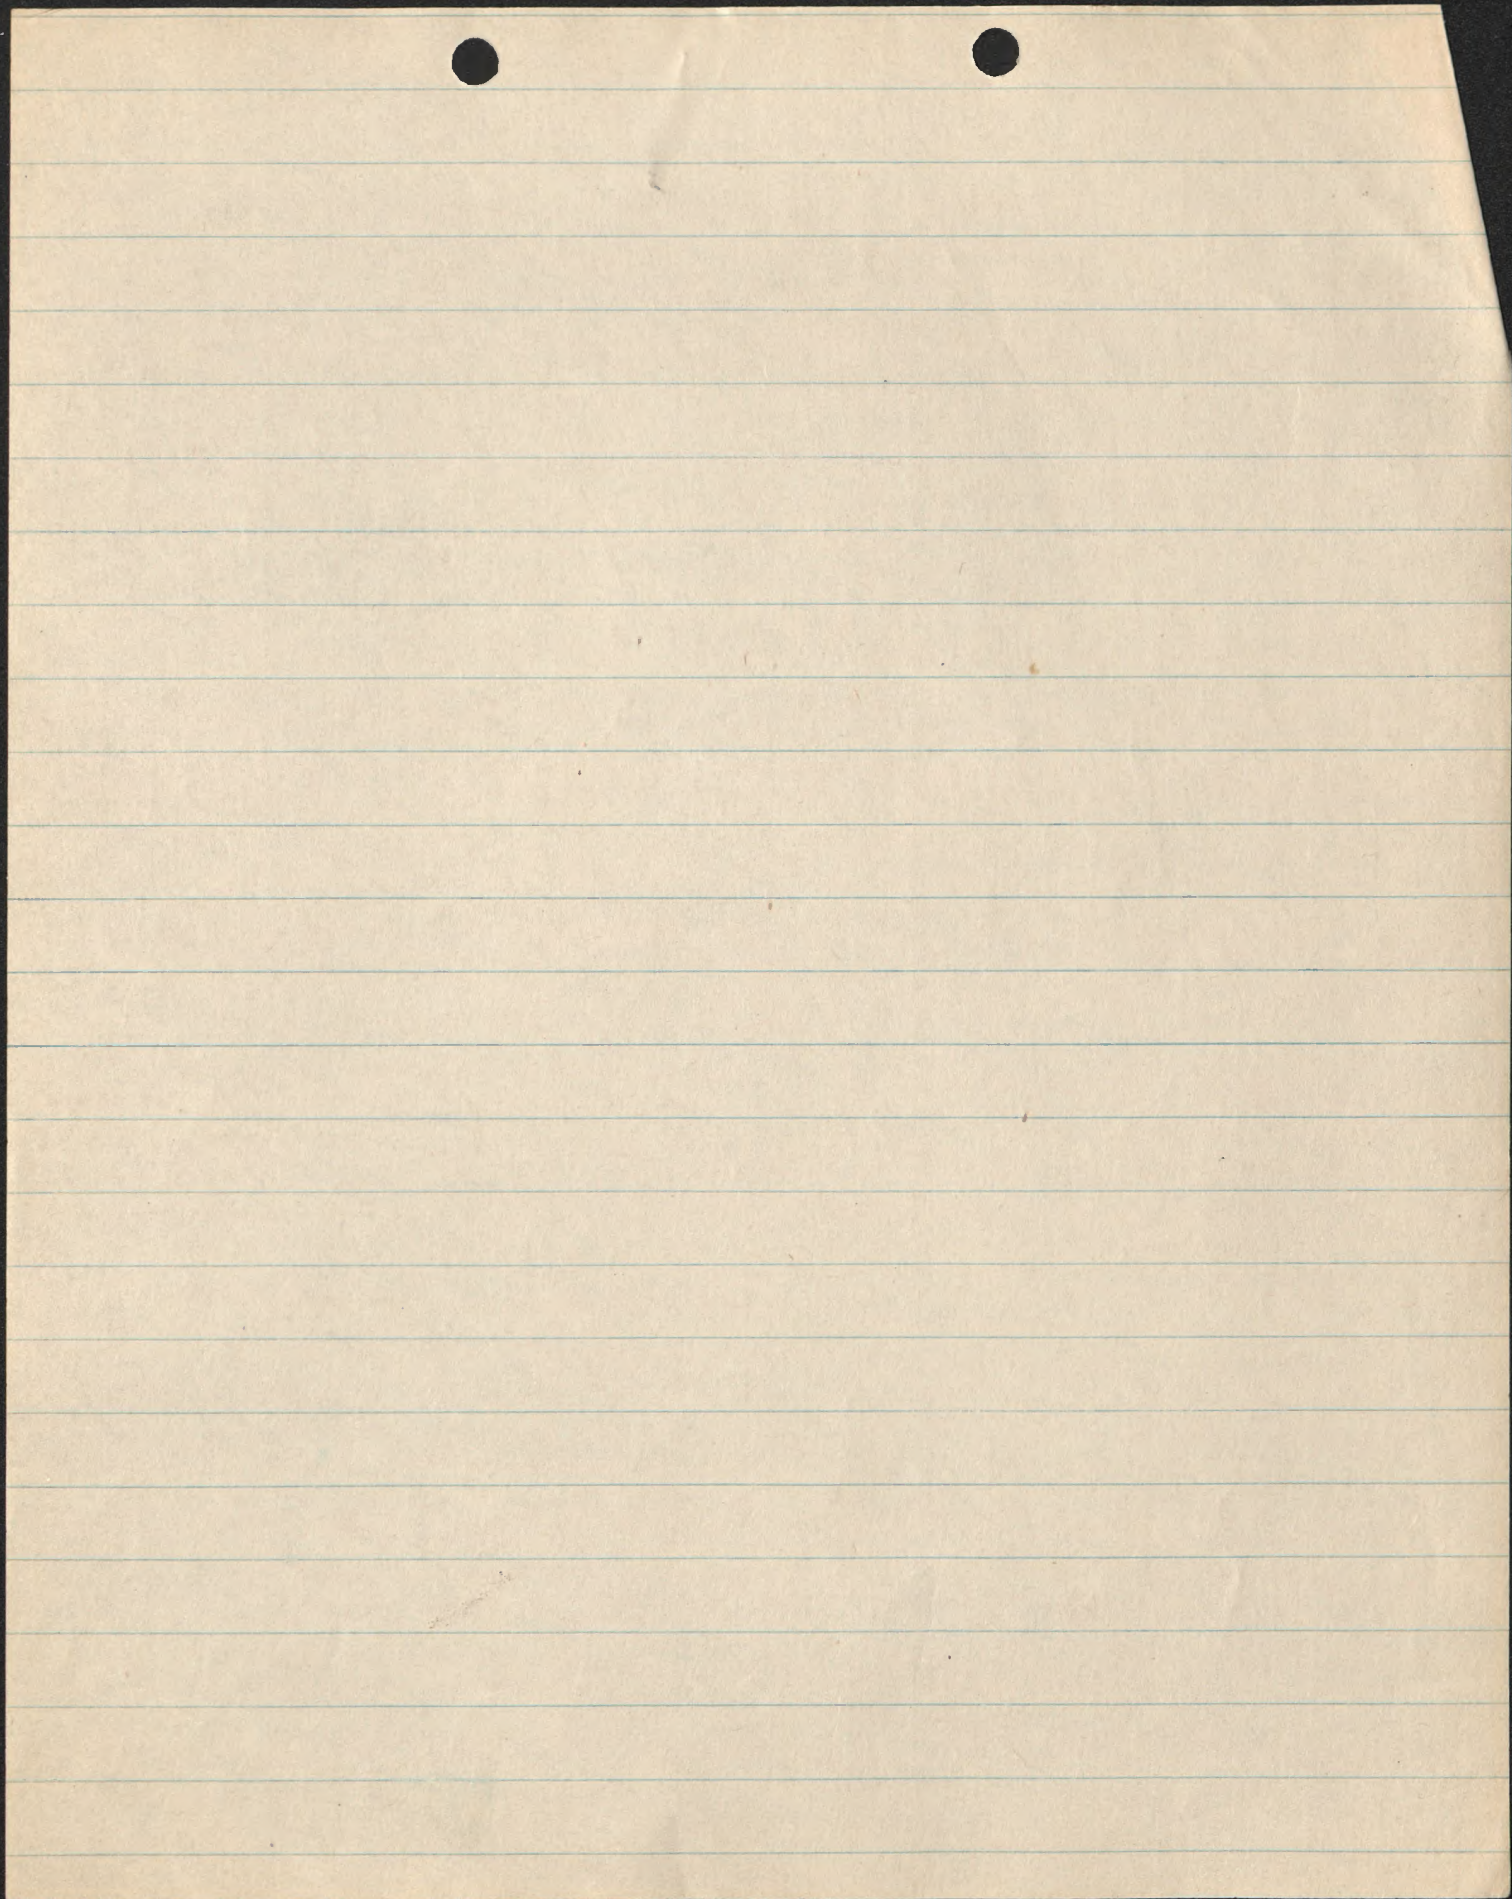

1 egg only

1/2 - 30 - 8 - 36 B

shape ovate; shell smooth, gloss slight;  
color white, markings dark chocolate brown dots  
& very small spots plentifully scattered over large  
end, on a few <sup>dis</sup> dots sparingly scattered over  
rest of shell.

~~Wm~~

$\frac{1}{3}$  24-8-36 c

21.4 x 13

sh <sup>slender</sup> elongate ovate; shell smooth, gloss  
medium, color uniform olive brown,  
paler on small end; this color is scraped off  
on one side to show the bluish white shell  
color.

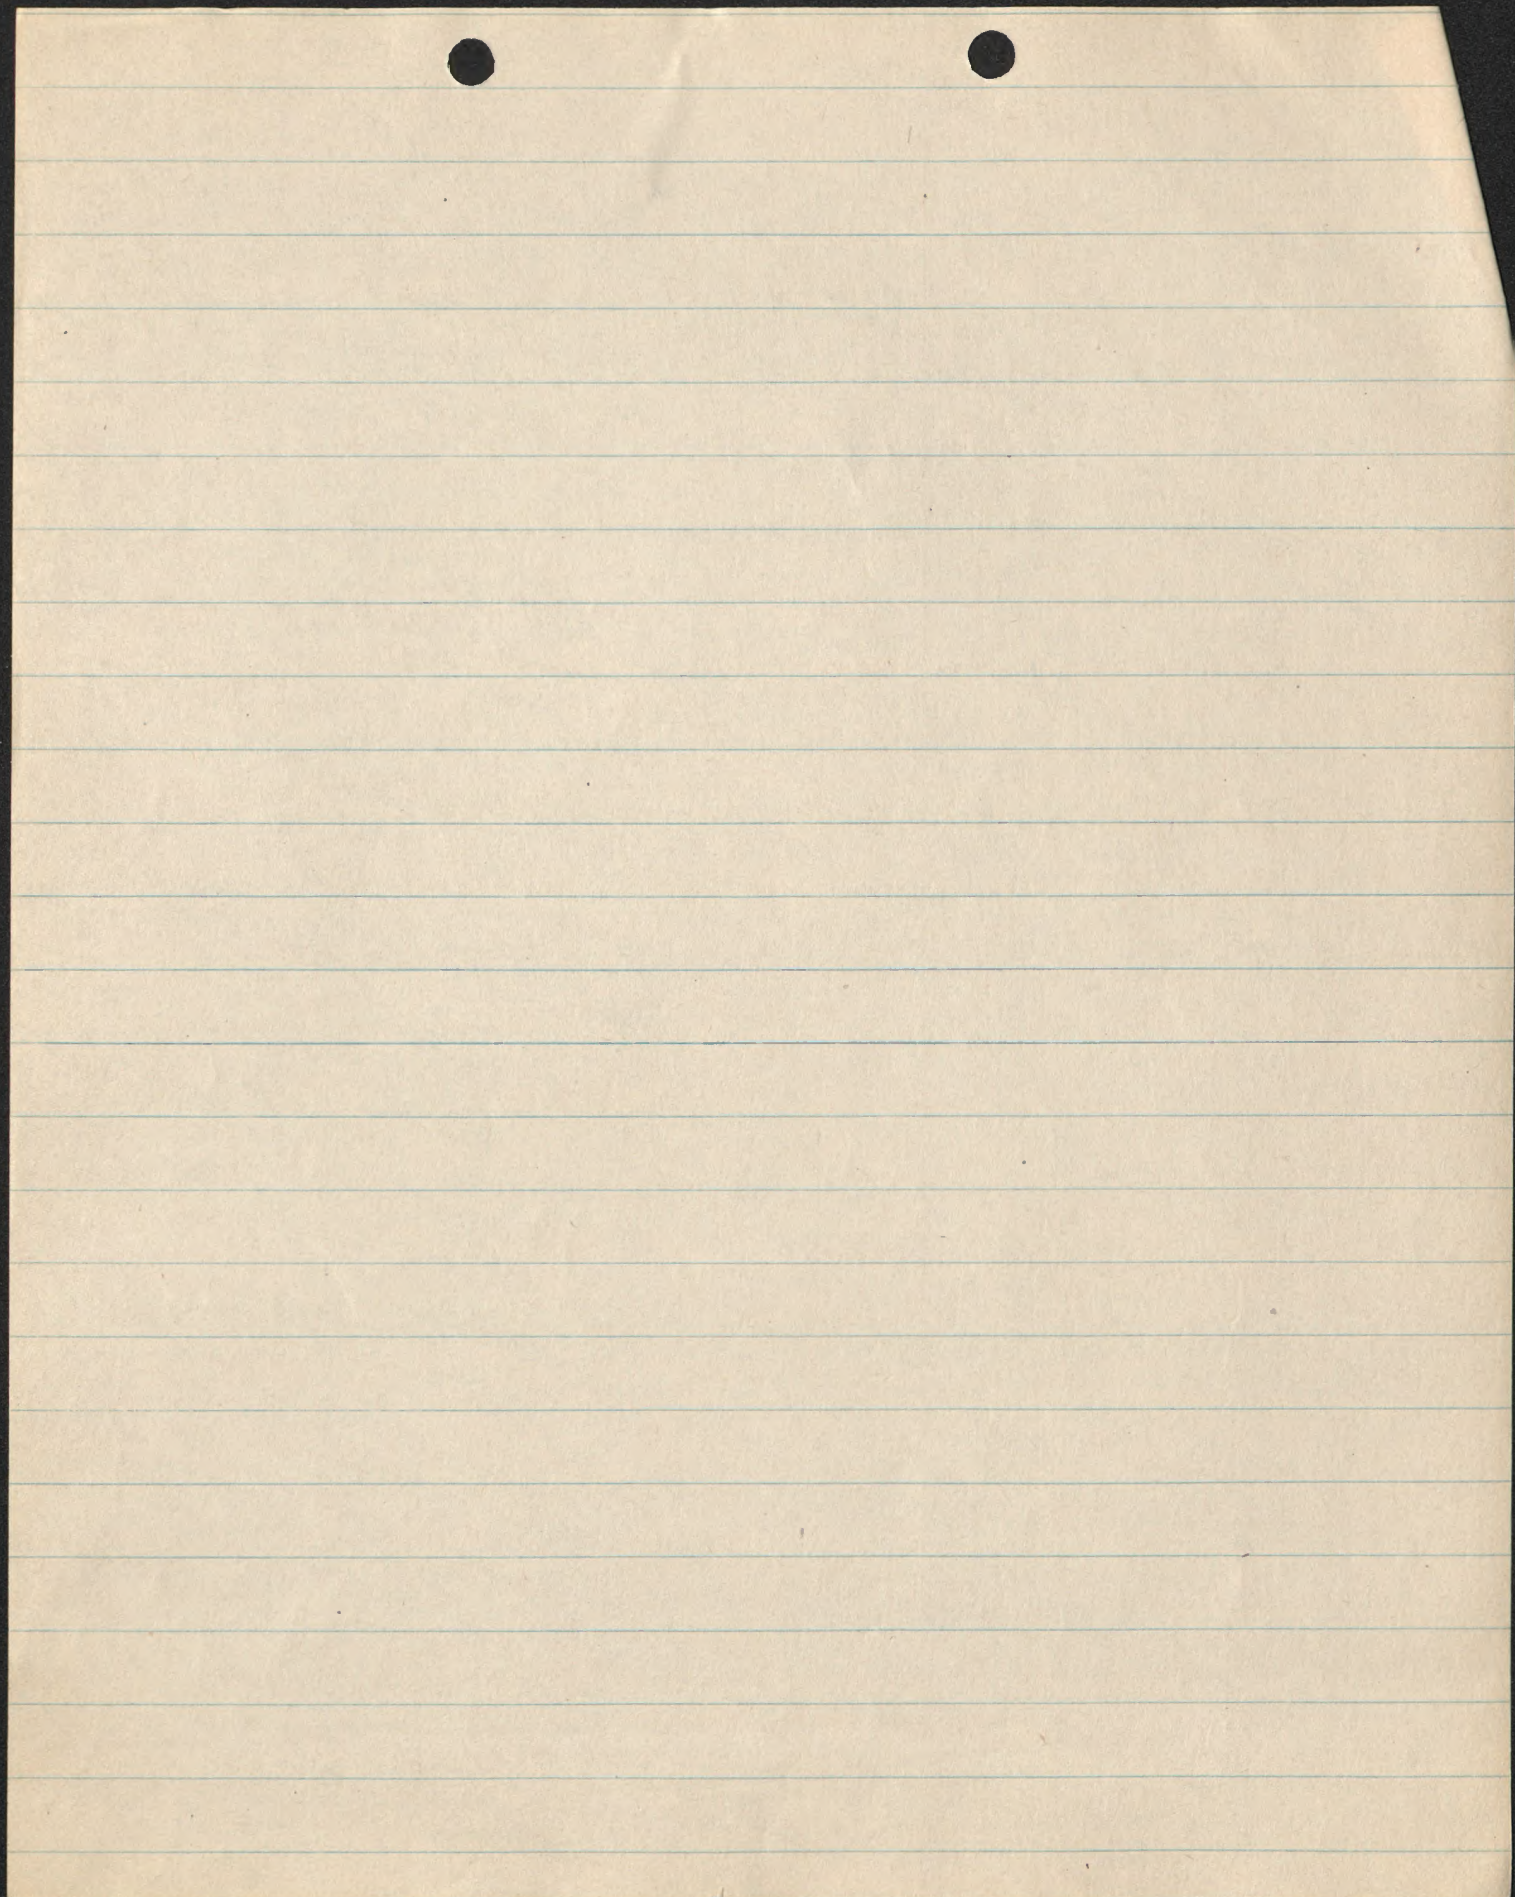

1/2 - 24-8-36 10 Lake Danubius  
1 broken shell + 1 complete shell

29.4 x 20.9

shape blunt ovate; shell smooth  
glass medium; color pinkish, markings  
entirely brown, all more or less uniform with shell  
color to give receding groups of various shades  
dots, spots & blotches, small to medium size,  
plentifully scattered over the whole shell

Oriolus  $\frac{1}{2}$  2-9-36

$\frac{1}{2}$  2-9-36<sub>B</sub> Lake Danimber

33.7 x 23

33.6 x 23.5

Shore mate; shell smooth; goss medium;  
color very pale brownish white, markings  
dots and spots of chocolate brown, some overlain  
with shell color to give secondary groups, fairly  
densely scattered over the larger end in one; in a  
zone about larger end in the other; sparingly  
scattered over the rest of the shell.

*Platysiphus aurantifrons*

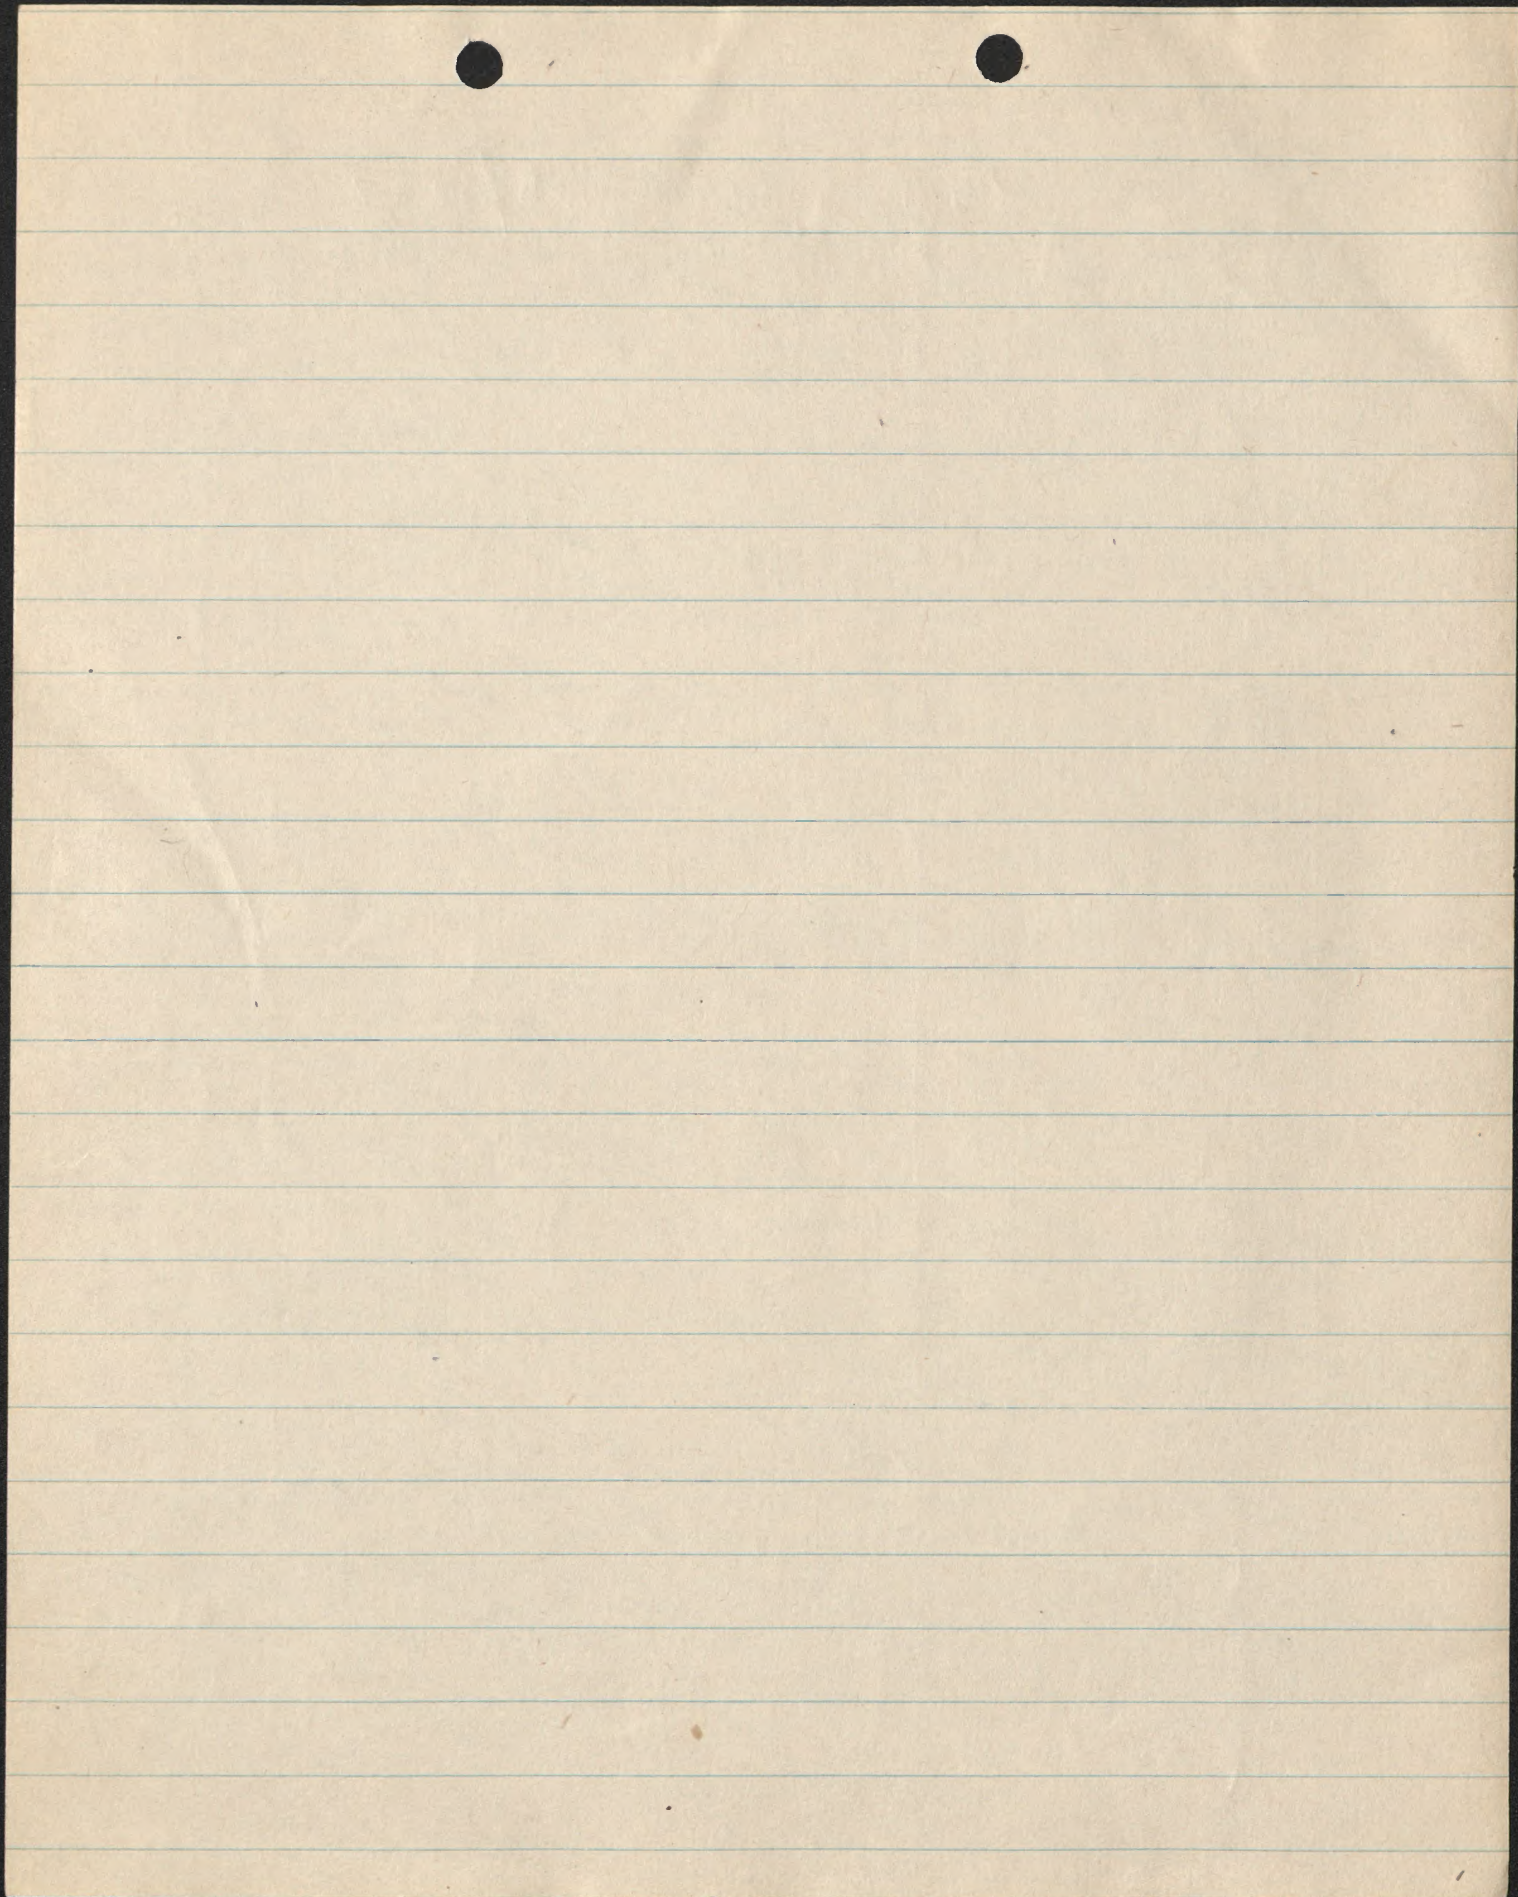

1/7-9-36 B.

Lake Downer

shape ovate; shell smooth; gloss medium;  
color white

32.1 x 22.6

~~Richard~~ Esq.

~~1936-37~~

Nest + Eggs

*Syrna torator* etc.

4, 2-9-36

Lake Umbagog

25.1x 22.2

These broadly ovate, nearly round; shell smooth, glass high; color white.

M. modesta

21-8-36

Lake Downer

1598

shape acute

shell smooth

gloss medium

color white tinged blue

marking dark brown + secondary  
grey dots + small spots  
almost all in a dense wreath  
about the larger end

21.7 X 15.6

Arch. Exp  
1936-37

Momunrealesta

2 eggs.

1/2 26-8-36 Lake Dunbar

2 eggs.

shape notes

shell mostly

glass object

color pale greenish blue

markings dark brown + secondary grey,  
dots + small spots, forming a broad, nearly solid  
vertical about the larger end,  
& sparsely scattered over the  
rest of the shell

21.8 x 15

21 x 14.5

$\frac{1}{3}$  - 24 - 8 - 36<sub>c</sub>
